

Microsoft Dynamics AX 2009

Quick Reference Guide Addendum

Updates:

Supply Chain Management - Nov 2009

About this document

The Microsoft Dynamics® AX 2009 Quick Reference Guide Addendum reflects updates and changes to the Quick Reference Guide published in June 2009. It is important to use this addendum in conjunction with the Quick Reference Guide as it contains the most accurate information.

The Quick Reference Guide includes functionality and modules that are available to the majority of countries in which Microsoft Dynamics AX is available. Please visit [PartnerSource](#) to view the latest information about Microsoft Dynamics AX, including product updates and Business Ready Licensing changes.

The information contained in this document represents the current view of Microsoft Corporation on the issues discussed as of the date of publication. Because Microsoft must respond to changing market conditions, this document should not be interpreted to be a commitment on the part of Microsoft, and Microsoft cannot guarantee the accuracy of any information presented after the date of publication.

SUPPLY CHAIN MANAGEMENT > Inventory Management

(Update: Nov 2009)

Inventory control functionality (previously listed in the **TRADE** module in Business Essentials) has moved to the **MASTER PLANNING** module in Advanced Management. Changes are reflected in red.

UPDATE:

MASTER PLANNING (ADVANCED MANAGEMENT)

Inventory Management

- Control inventory using a variety of inventory models and safety stock support.

PREVIOUS LISTING:

TRADE (BUSINESS ESSENTIALS)

Inventory

- Use multiple costing methods, including first in/first out (FIFO), last in/first out (LIFO), standard cost, and weighted average
- Easily reconcile inventory values versus ledger transactions for revision purposes
- ~~Control inventory with a variety of inventory models and safety stock support~~
