World Class Service...

Customization, implementation and support from your proven business solutions partner

Take your business into the future.

Western Computer is your world class partner for scalable, affordable and secure Microsoft Dynamics solutions. With over 25 years experience and locations across North America, we have the expertise and track record you need to get a solution tailored to your specific needs.

Empower your organization, improve productivity and compete on a global scale.

From manufacturing and distribution channels to industry vertical markets, we have the expertise it takes to give your business powerful tools to grow and increase profits. Our team of seasoned professionals is recognized for exceptional service, targeted training and proven customer support.

From implementation to customization to ongoing training and support, we help ensure that your business realizes the full potential of your Microsoft Dynamics solution.

See what a world class solution from Western Computer can do for your company, schedule your free consultation today.

Navigate. Collaborate. Integrate.

Microsoft Dynamics AX

Compete in the global marketplace.

Microsoft Dynamics AX delivers improved tools to help your people find, use and share information, build more profitable relationships, meet shifting demands and capitalize on new opportunities.

Your business can define flexible workflows that enhance organizational controls and help you meet a variety of financial, legal and environmental compliance requirements, as well as customer initiatives.

Designed to manage the complexities of global organizations across multiple sites, Dynamics AX allows you to centralize and standardize processes, collaborate effectively and build more profitable partnerships. RoleTailored access allows your entire staff to better manage individual work, as well as have access to the critical information they need.

Microsoft Dynamics NAV

Transform challenges into solutions.

Microsoft Dynamics NAV is an integrated, business management solution that can streamline processes and deliver robust reporting and business intelligence. Enhance personal productivity with RoleTailored user experience and connect employees, customers and partners across a global marketplace.

Dynamics NAV was developed specifically for small to mid-size companies looking for a single solution that can be implemented rapidly, customized and maintained with minimal disruption.

Western Computer customizes a solution to the way your business works, fully integrated to your systems and easily extended to meet your needs. So you get the most out of your Dynamics NAV solution.

Microsoft Dynamics CRM

Improve sales and customer service.

Microsoft Dynamics CRM is a fully integrated customer relationship management (CRM) system. It gives you the ability to easily create and maintain a clear view of your customers from first contact through purchase and post-sales.

With native Microsoft Office Outlook integration, Dynamics CRM delivers a fast, flexible and familiar software that gives worldwide organizations the applications and tools they need to improve marketing, sales, and customer service efficiency and effectiveness.

Dynamics Start Now

The power of a SaaS hosted solution.

With Dynamics Start Now you get a Microsoft Dynamics solution delivered to your business as hosted Software as a Service (SaaS). For a low monthly cost, you have access to robust functionality and the sophisticated reporting and decision-making tools you need to handle the requirements of your growing business.

Integrated Services

Take full advantage of your solution.

Your business is unique. Your business management system should be, too. At Western Computer, we configure to meet your specific internal and external requirements, fully integrating your system with your operations.
